McHENRY

Hello

I'm Dr. Sherene McHenry

Former graduate professor with a PhD in Counseling turned full-time Certified Speaking Professional.

Let's start today by equipping leaders, teams, and individuals with what they need to better understand themselves—and each other.

I can tell you what does and doesn't work when it comes to people, because I've spent a lifetime studying them.

As a kid who offered marital advice before I could drive, I learned early on to pay attention to what makes people tick.

After decades of observing, learning, and teaching, here's what I know: When we equip leaders and teams to interact in healthier ways, people and organizations flourish.

Give me an hour, and I'll teach your audience skills that will last them a lifetime

"Sherene was a pleasure to work with and really listened to our needs. She kept our leaders engaged, entertained, and inspired with relevant information, humorous anecdotes, and practical tips."
